

Brussels, 16th March 2018

Dear Madam, Sir, Sympathizer,

For more than 10 years, the Fournier-Majoie Foundation has been working to advance cancer research by helping researchers-inventors-entrepreneurs realize their innovations until they can be used by the medical profession (the first time for) to the benefit of the patients.

We are pleased to send you the Activity Report 2017, which shows you the progress, strong moments and successes that have marked the past year.

Thanks to your generosity and your faithful support, we will continue to fight the battle against cancer.

Sincerely,

Bernard Majoie
President - Founder

Jérôme Majoie
CEO
